Envelope outside flap:

Why become a Friend of the MFM?

The Memphis Farmers Market (MFM) is a seasonal, outdoor market located Downtown that:

1. Improves the community's nutrition options with the highest quality seasonal, local produce
2. Assists and supports area producers with sustainable business opportunities
3. Generates a sense of local pride and furthers the economic development of the community
4. Provides a vehicle to educate the community on the importance of nutrition to good health

The volunteer, not-for-profit market works on a small budget that must support a large array of operating expenses that include insurance, permits, licenses, signage, utilities, site improvements, marketing, promotions, a part-time market manager, and more. We meet these needs through vendor fees, fundraising, market memberships, foundation grants, and sponsorships.

We invite you to visit our website, www.memphisfarmersmarket.org, to learn more about our special, community-minded organization of health-driven and ecological-sensitive members. Then, we ask for your support in continuing a momentum that is steering Memphis toward healthier food choices and lifestyles.
